Buenos Aires, Argentina

About Me:

I am currently in my last year of the Cybersecurity Technician program. I have experience in IT Systems Validation and user support. I am a team player and I am ready to use my skills and passion to drive the company's goals.

Work experience:

2023 | At the moment

Pharmware | IT Systems Validation Analyst

Throughout my career, I have been responsible for validating IT systems for clients in accordance with various regulations such as ANMAT, GxP, ISO 27001, and NIST.

My experience also includes providing user support, participating in the implementation of systems, and collaborating in the software lifecycle, validating different processes and ensuring the assurance and continuous improvement of IT quality.

In addition, I have participated in the drafting of documents, the design and execution of test plans, and the validation of the operation of IT systems.

In other words, I have developed extensive experience in the field of validation and management of IT systems, with a strong commitment to quality and customer satisfaction.

2017 | 2023

Administrative / Support in senior Residence. (Gerihome Home)

I was responsible for the efficient management of documentation, the coordination of activities, and the resolution of technical problems. I also provided assistance in the implementation and use of technologies to improve the administrative tasks of the institution, and in the maintenance of software and hardware.

EDUCATION:

2022 | in progress

CYBERSECURITY TECHNICIAN | UNIVERSIDAD RAÚL SCALABRINI ORTIZ

I have acquired solid training in cybersecurity, developing skills in various tools and methodologies. I have experience in using tools like Nmap, OpenSSL, Symantec Endpoint Protection, Kali linux, etc. which I have used to make:

- Penetration tests
- Vulnerability scan
- Incident investigation
- Risk management
- Network security
- Endpoint security
- Training and awareness in security
- Security audit

Additionally, I have stayed up to date with the latest threats and trends in cybersecurity, allowing me to protect organizations' systems and data.

SKILLS

TECHNIQUES:

- VULNERABILITY SCAN.
- CRYPTOGRAPHY.
- PROGRAMMING.
- RISK MANAGEMENT.
- USER ACCESS AND PERMISSION MANAGEMENT.
- PHP.
- SQL.
- LINUX.
- POWERSHELL.
- PYTHON.
- REPORTES.

- ADAPTABILITY
- AUTONOMY
- ORGANIZATIONAL CAPACITY
- PROBLEM RESOLUTION
- FAULT IDENTIFICATION
- CUSTOMER ORIENTATION
- TEAMWORK

COURSES:

- Bug bounty | MercadoLibre | 2024
- Desarrollo Front-End | Coderhouse | 2022
- Pentesting | Udemy | 2021
- Java | Instituto Cetia | 2021
- SCRUM Fundamentals | scrumstudy | 2023

LANGUAGE:

- INGLES: C1 | EFSET
(reading, listening and speaking: intermediate)
- ESPAÑOL: NATIVE

CERTIFICATIONS:

- Network Security Associate | NSE1, NSE2, NSE3 | Fortinet
- Introduction to Cybersecurity | Cisco
- AWS-Cloud Practitioner | IT COLLEGE
